

We offer flexible power management solutions for your *mission critical applications*. With years of experience and certified technicians, CORE guarantees customer satisfaction. We partner with trusted brands in UPS, HVAC equipment, Emergency Lighting Inverters, Switchgear, batteries and racks, to ensure reliability where it matters most.

*Valuable and flexible solutions to keep your power clean, reliable and efficient.*

### Uninterruptible Power Supply (UPS)

- Single Phase UPS - 1kVA - 22kVA,
- Three Phase UPS - 10kVA- 2000kVA
- Batteries & Maintenance Bypass Switch Cabinets
- UPS & Battery Monitoring

### Medical and Laboratory special grade UPS systems

- Three Phase – 10kVA–40kVA
- Conformal Coated Boards
- UL1778 and Seismic/OSHPD approved
- Built in powerful charger to support long runtime application when connecting to big capacity of external battery cabinet

### High Efficiency, K-Rated Transformers

- Single Phase—5kVA –25kVA
- Three Phase—15kVA-500kVA
- Meets and exceeds DOE 2016 minimum efficiency standards

### Emergency Lighting Inverters

- Single Phase – 550W - 18KW
- Three Phase – 10KW - 55KW
- No-break Output Online Operation
- UL924 listed as “Emergency Lighting Equipment” and NFPA 101 compliant as “Life Safety Equipment”

### Power Distribution Units

- Metered/Switched and Basic/Metered type PDUs
- Rackmount (Zero U) PDUs
- Easy to install with a toolless design
- Uses upgradeable firmware to function at optimal levels
